Volunteers are a big part of CAM's mission to promote the use, not abuse of our waterways.

Take Captains Gary Giles and Ron Presley. They've both volunteered their time and resources to help organize and conduct the many CAM's "Hook Kids on Fishing!" programs we hold each year. Gary and Ron are hard working Indian River Lagoon fishing guides and they are dedicated to helping us better communicate and educate today's youth about fishing and conservation. We work as a team, teaching the children and their families to better use, conserve and respect our limited, natural resources. Coastal Angler Magazine thanks you - Capt. Ron Presley and Capt. Gary Giles - for being a big part of our team!

CAM Thanks YOU!!

D.O.A.
The Unfair Advantage

**FOR FRESH OR
SALTWATER
LURES!**

The CHUG HEAD is designed to give a new dimension to D.O.A. C.A.L. Lures or any of your favorite soft plastics.

Simply slide the D.O.A. CHUG HEAD over the front of your favorite soft plastic, rig with a worm hook and now you have a walking popper or diver. This offers the thrill of the top water strike, but the slow sink allows the lure to fall into the strike zone of your prey.
